Description

This two story, three bay house rests on limestone foundations. It is sheathed with German siding and has a central main entrance in its east elevation. Windows have single pane sash and are trimmed with flat topped architraves, typical of about 1900. An exterior chimney of rubble stone is located against the south end wall. There is no window in the central bay of the second story. The roof is covered with corrugated sheet metal.

Built as a tenant house this vernacular dwelling is typical of ca. 1900 construction in Keedysville and the larger region.
